

# LEVEL LIVEDATA WEB INTERFACE

Level LiveData Basic, Level LiveData Advanced

NAVIS tank level sensors

Navis Level LiveData capable devices

Level LiveData

Navis Level LiveData is cloud based web portal that allows viewing data form multiple Navis wireless tank level sensors. It works by connecting Navis wireless tank level sensors to Navis Level LiveData capable devices.

Devices transmit data to Navis Level LiveData web interface.

Data can be viewed globally on web browser using URL: [level.navis-livedata.com](http://level.navis-livedata.com) .

## FEATURES

- view data online 24/7 via [level.navis-livedata.com](http://level.navis-livedata.com)
- real time tank level data
- level units in Liters, Hectoliters, Cubic meters and Gallonas
- temperature in °C or °F
- multiple data charts
- chart history up to 12 months
- logs for detailed analysis can be downloaded for up to 12 months
- log sample interval adjustable from 1 minute
- local Navis display units
- free Basic or payable Advanced access available

NAVIS

**ORDER CODE:**

- 1. Level LiveData Basic - FREE BASIC ACCESS
- 2. Level LiveData Advanced - PAYABLE ADVANCED ACCESS

|        | Basic    | Advanced               |
|--------|----------|------------------------|
| Live   | 1 minute | 1 minute               |
| Charts | Month    | Day, week, month, year |
| Log    | No       | Yes                    |

\*When Level LiveData account is registered, 1 month free Advanced access trial is automatically enabled.

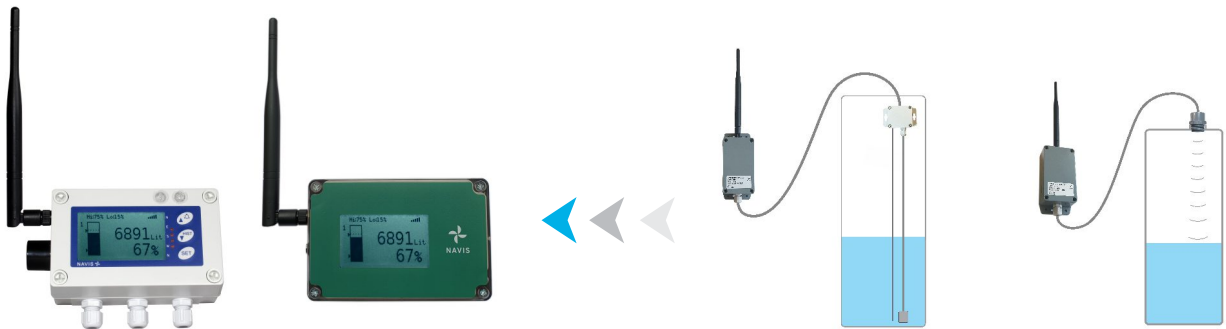

**NAVIS LEVEL LIVEDATA CAPABLE PRODUCTS:**

**NAVIS DEVICES**

LW410XW/D  
 LW410XL/D  
 LW410HUB

**LONG RANGE WIRELESS SENSORS**

**TECHNICAL DATA**

- Level display:**
  - in percentages, 0 - 100%
  - numerical, in different level units
  - graphical
- Level units:** Liters, Hectoliters, Cubic meters and Gallonas
- Temperature measurement range:** -30....+60 °C
- Temperature units:** °C, °F
- Temperature resolution:** 1°C
- Live data refresh rate:**
  - Basic access: 1minute
  - Advanced access: 1 minute
- Charts intervals:**
  - Basic access:1 month
  - Advanced access:1 day, 1 week, 1 month, 1 year
- Log data history:** up to 365 days
- Log data file format:** .txt, .csv
- LEVEL LIVEDATA web interface URL:** level.navis-livedata.com
